## About Book

As one reader states, "**From Parent to Power** is a much needed Parent Guidance/Self Help, Schooling & Educational, Spiritual Guidance Book in one that every parent should have."

Ms. Austin's latest book, '**From Parent to POWER**' replaces the book *Parents, the Power Behind Your Child's Success* and includes more educational material like the *Assignment Evaluation Tracking Grid*, which helps parents identify and keep track of quality assignments given to their child.

In addition, readers' reviews favor the increase of real case scenarios surrounding controversial topics like teenage prostitution/exploitation, parent/teen suicide and negative spirits/energy in the home. The 34 scenarios help parents plan and effectively deal with complicated and difficult issues. With more spiritual guidance verses and concepts to help parents, the book continues to be a success.

All parents and all children will benefit from the information presented in the book. The book has been designed to help one cultivate their child's uniqueness, develop their child's potential and help their child succeed even greater in school and life. In addition, this book helps the parent understand the child's educational needs - especially parents of children who need special services or tutorial.

In Ms. Austin's words...Too often, parents are afraid; they don't know what to do. In *II Timothy 1:7* it states, *For GOD has not given us the Spirit of fear; but of Power and of Love, and of a Sound Mind.* Therefore, we have to teach and show parents that they have this spiritual power and love, and that they don't have to be confused and fearful. It is one thing to go to church, but too often parents have difficulties applying their spiritual guidance in their lives and to parenting their children.
